Special requirements

PRODUCT CODE	QUANTITY	NOTES

Before you place your order

State dimensions, contents and customisation requirements against the same product code in your quotation.

Dimensions & weight

cm: product dimensions. g/item: weight of one item. g/m² (GSM): fabric weight per square metre. Item weight and GSM are different measurements.

Fabric & set contents

Weave grades reproduce the source 'tel' rating, without conversion to threads per inch. Yarn and fibre blends are listed by code. Bedding sets and individual sheets or covers are separate products. Confirm set piece counts.

Images & variants

Some pages use a shared product-family image. Captions describe the model shown. Confirm colour, texture, sole, upper and packaging against a sample.

Minimum order & lead time

Export minimum order: 10,000 units per product and variant; sets are ordered as complete sets. Lead time is confirmed for the order quantity, stock and branding requirements.

Specifications to confirm

Missing or inconsistent details, including cotton content, weight, filling, set piece count and closure type, are flagged on the product pages. These require confirmation before production.

Prices & commercial terms

This catalogue is unpriced. Refer to the export price catalogue and order quotation for current prices, freight, payment and delivery terms, using the same product codes.

Made for your brand

TÜRKAZ-branded packaging images illustrate printing applications on product photographs.

Image: TÜRKAZ printing example on a 15 g boxed soap.

Logo & packaging

Logo, hotel name and custom packaging options are available for suitable products. The box shape and product construction follow the selected model.

Print colour, logo position and packaging are approved by proof before production. Custom printing, printing plates and other extras are specified in the quotation.

Quote the catalogue code so we can offer the correct model and packaging.
